

Registered Energy Assessors Registration and the practice of Energy Assessments

In October 1998, the Electrical and Mechanical Services Department has launched the voluntary Hong Kong Energy Efficiency Registration Scheme for Buildings to promote the application of Building Energy Code. To further promote building energy efficiency, the Government enacted the Buildings Energy Efficiency Ordinance (the Ordinance) which is to come into full operation from 21 September 2012 onward.

The Buildings Energy Efficiency (Registered Energy Assessors) Regulation (the "REA Regulation") (Cap. 610B) made under the Buildings Energy Efficiency Ordinance (the "Ordinance") , Cap. 610 comes into operation on 21 March 2011. The REA Regulation contains the detailed provisions concerning the registration and regulation of, and disciplinary matters in respect of, Registered Energy Assessors (REA).

The International Professional Consultants, the Society of Operations Engineers and the Institution of Environmentalists jointly organize this training course for assisting the professionals interested in the application for registration as REA and the actual practice of energy assessment for new and existing buildings.
